# Announcements

- **For waitlisted students**

Please make sure you're enrolled on Piazza and Portal!

(Ask your TA if you're confused)

- **Text Editors + Chrome**

You'll need them for today's lab!

- **Come to office hours!**

They are posted on Piazza :D

- **CS61A Midterms are excused absences**

Will have absence post on Piazza / email us about any different academic conflict

- **Give us anonymous feedback** at [wdd.io/go/feedback](https://wdd.io/go/feedback)

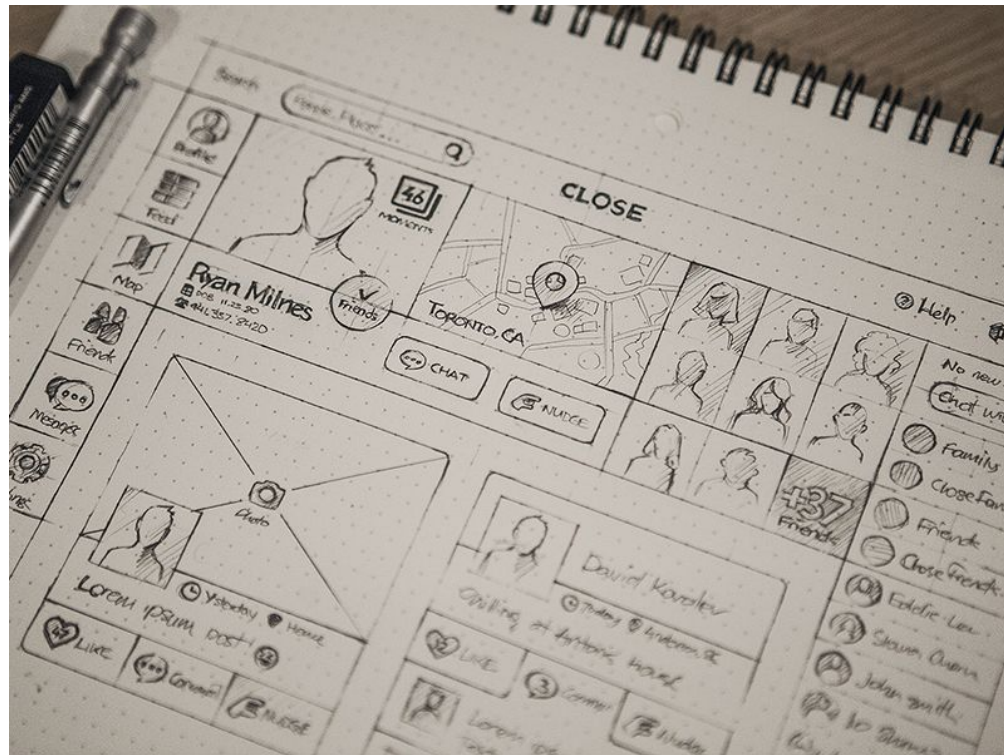

Week 1 Hands-on

# Cohort Recap from your TA!

**Let's set up your project workspace :D**  
Download the hands-on starter assets at [wdd.io](https://wdd.io)

## Work Time

# Write your HTML skeleton

## Tips to success:

- Utilize the parent-child relationships for clarity in the structure of the page
- Put comments in  
`<!-- comment -->`

```
<section>
  
  <!-- Size-two heading -->
  <h2>Surfing Experiences</h2>
  <p>Lorem ipsum dolor sit amet, consectetur
adipiscing elit. Mauris vulputate lobortis
nisl, feugiat imperdiet arcu condimentum a.
Morbi fermentum eros mi, ut gravida nibh
lobortis ac.</p>
</section>
```

# Code hints

```
<header><!-- Put the top of the page in header & oooh this is semantic -->
  <input type="search" /><!-- Search box -->
  <nav><!-- Navigation block & oooh this is also semantic -->
    <a href="become-host">Become a Host</a><!-- Make a link -->
  </nav>
  <a href="account"><!-- Make a link -->
    <!-- We can put an image inside a link -->
    
  </a>
</header>
```
